

Abridged Company Profile

GB Square (Pty) Ltd is a name synonymous with build-to-suit interior contracting. Launched in 2005 the company has grown beyond expectations to include a wide variety of projects ranging from small tenant renovations, up-market housing, drywall partitioning and ceiling installations for the corporate market, and diverse tenant installations for the commercial industry. There are notable trends in the highly competitive commercial real estate environment to provide sustainable build-outs and other interior improvements within the office-market sector. This means that companies are moving offices to purpose-built workspaces that are engineered to better meet their needs. The retail market is also expanding rapidly; consumer demand for high-end products drive retail expansion, creating millions of square feet of retail and restaurant space.

GB Square (Pty) Ltd provides a ***complete customized package deal*** to include drywall partitioning, ceiling installations, bulkheads and special ceiling designs, alterations to existing office layouts, doors to any specification, counters and reception desks, painting (standard and special finishes), glass and aluminium, associated building work (including electrical, plumbing and tiling), data cabling, space planning and office design, carpeting, shop-fronts, windows and doors. Specialist subcontractors partner with GB Square (Pty) Ltd on projects as required.
